

Specialist vehicle conversions

What we do

We work with our customers to design and build specialist vehicle conversions.

Capable

Our in-house expertise delivers your complete solution.

From power management to communications and from lightweight materials to operator comfort – we have the expertise, capability and commitment to deliver solutions to fit your needs.

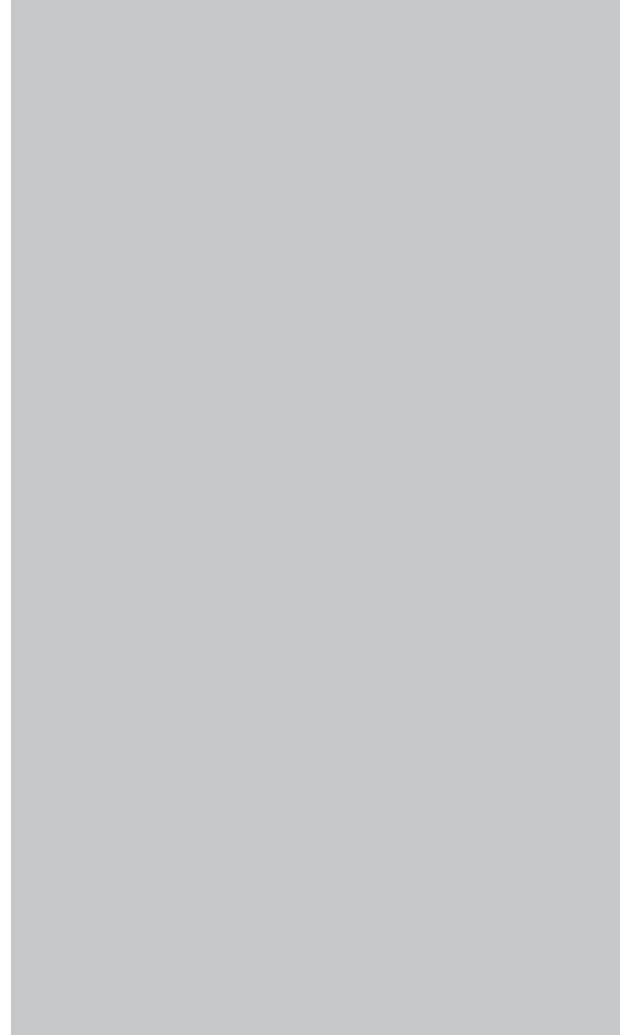

Dedicated

Your trusted partner.

We understand that ordering a bespoke specialist vehicle can be a big decision – you need a partner who cares about your conversion, returns your calls and delivers on their promises.

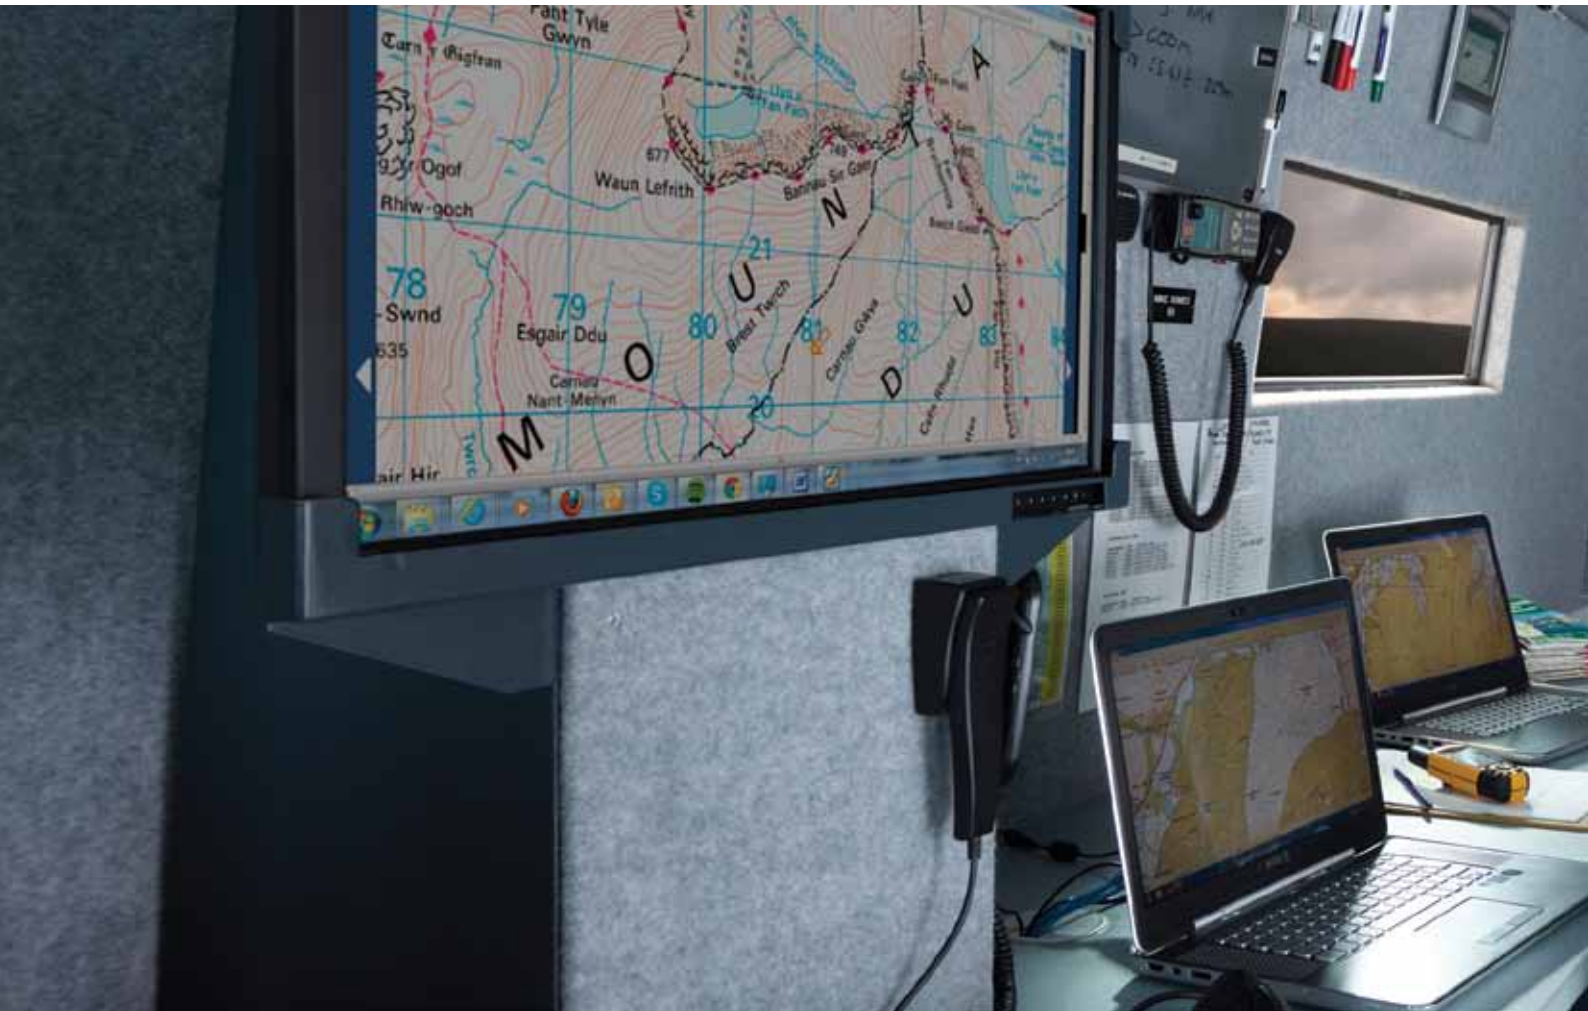

We are always open and transparent, we deliver to agreed schedules, and we're confident that we will exceed your expectations.

Built to last

Our conversions withstand the rigours of working life.

We use the highest quality materials and components assembled with dedication and care to create a vehicle which delivers day in, day out for the long term.

WARNING: TRIPLE SUPPLY
DO NOT REMOVE OR REPLACE THE SUPPLY
UNLESS YOU ARE QUALIFIED TO DO SO.

bott

We listen, we respond, we deliver

We pride ourselves on listening to you and understanding your needs.

We'll work closely with your team to develop the specification that's right for you, making sure that we capture the thoughts of your whole team.

We understand that situations change and time lines alter. Our team work flexibly with you to deliver your projects. And with dedicated account management you'll be kept up to date at all stages of your conversion.

Efficient Craftsmanship

How can I have the efficiency of a fleet converter with the craftsmanship of a coachbuilder?

By choosing a converter who understands both worlds. We understand budgets are not infinite, timescales are tight and high quality is not an optional extra.

Our efficient processes and range of storage systems, developed over 20 years allow us to work smarter, saving you time, making your budget go further, and always delivering a product you can rely on.

A team of experts

Our in-house team contains experienced specialists in all the key areas – electrical, mechanical, compliance, engineering, graphics and project management to name but a few.

This depth of experience means you can rest assured that we will deal efficiently and swiftly with all the complexities of your conversion.

Design

Expert knowledge, advanced technology.

Our designers combine years of specialist vehicle experience and the latest CGI and materials technologies to develop innovative designs which are fit for purpose.

Compliant

Legal and compliance support.

We understand the complex legislative and compliance environment surrounding specialist vehicle conversions. We continuously consult with all relevant regulatory bodies, and are a partner to the Van Excellence programme, a Freight Transport Association initiative.

When you choose Bott this expertise comes as standard. We'll advise you on compliance issues and work with you to produce a fully compliant vehicle.
